Boway Model 5610H Programmable Hydraulic Cutter

Precision & Performance

Hydraulic Power: Robust Hydraulic Cut and Clamp ensures clean, straight cuts through full material stacks. Includes a Foot Pedal for precise manual pre-clamping.

High Accuracy: Achieve industry-leading accuracy of ± 0.2 mm every time.

Servo Control: Equipped with a Servo Motor for ultra-precise and smooth backgauge positioning.

External Control: Outer Hydraulic Pressure Controller and 2 Indicators allow for quick, external monitoring and adjustment of pressure settings.

Feature	Capacity
Max Cutting Size	22" x 22" (560 x 560mm)
Max Cutting Height	3.9" (100mm)

Advanced Control System

The **Boway Model 5610H Programmable Hydraulic Cutter** features an intuitive system designed to maximize production time and reduce errors.

10.2" Touchscreen Display: Large, easy-to-use interface for simple programming and job retrieval.

Fully Programmable: Store complex cut sequences and repeat jobs instantly.

Minimize Handling: The Aluminum Air Table creates an air cushion, making it effortless to slide and position heavy stacks of paper.

Operator Safety First

The safety of your team is paramount. The **Boway Model 5610H** Programmable Hydraulic Cutter is built with critical protection features.

Light Beam Safety Curtain: Instant machine shutdown if the light barrier is interrupted, providing reliable protection for the operator.

Heavy-Duty Construction: Built for commercial environments with a robust frame that ensures stability and long-term reliability.

Feature	Specification
Power	220V, 50/60Hz, 1ph
Side Tables	Optional
Machine Dimensions (L/W/H)	49" x 35.4" x 55"
Net Weight	-1100 lbs / 500 kg

Other features

Hydraulic Power

Hydraulic Clamp with accurate cut line

Fast Aluminum Table (Air Optional)

Optional Side Tables

Your Partner in Cutting Excellence

The **Boway Model 5610H Programmable Hydraulic Cutter** is more than a cutter—it's an investment in efficiency, accuracy, and safety for your print shop.
