## State-of-the-Art Ink Printing with ECO-UV® and V-BOND

Direct print onto hundreds of different surfaces with the power of VersaUV technology and ECO-UV® or V-BOND inks—engineered for use on all applications they provide ultra-brilliant color results.

Print gloss/matte finishes, realistic textures, or 3D embossed effects to add another dimension of "touch and color."

For use with LEF2 flatbeds, Prop 65 and CPSIA compliant V-BOND inks have low VOCs, and are safe-to-use on toys, pet supplies, and other popular products.

Select VersaUV models include additional White ink and Primer ink for prepping glass, acrylic and other impervious media.

ECO-UV® inks are engineered for use on all applications—you don't need to purchase multiple ink sets for different media use.

## VersaUV® LEF2-200

UV Benchtop Flatbed Printer

Model	Sizes
<b>LEF2-200</b>	<b>20"</b>

- Print directly on virtually anything including giftware, accessories and more
- Add special finishes, realistic textures, or 3D embossed effects to add a new dimension of "touch and color"
- Pair an LEF2 with an LV-290 or LV-180 laser engraver machine to laser cut and customize your own products—save over \$10,000
- Optional BOFA air filtration system
- Print on bottles and other cylindrical items with optional rotary axis feature

### INK CONFIGURATIONS

**CMYKGIWh**  
**CMYKGIWhPr**

## VersaUV® LEF-12i

UV Desktop Flatbed Printer

Model	Sizes
<b>LEF-12i</b>	<b>12"</b>

- Compact UV flatbed for quick personalization of specialty items
- Add special finishes, realistic textures, or 3D embossed effects to add a new dimension of "touch and color"
- Perfect for pens, smart phone covers, personalized awards, giftware and so much more
- Optional BOFA air filtration system

### INK CONFIGURATIONS

**CMYKGIWh**

## VersaUV® LEC2 S-Series

UV Flatbed Printers

Model	Sizes
<b>LEC2-330S</b>	<b>29" × 59"</b>
<b>LEC2-640S</b>	<b>64" × 98"</b>

- Offers a generous height clearance of up-to 7.87"
- Customize signs, merchandise, packaging, displays, and more applications with multi-functional UV flatbed printing
- Discover new revenue streams, target new customers, and increase profitability with direct printing on flexible and rigid media
- High end color and print finishing with double CMYK or CMYK with Orange, Red, White, Gloss and Primer configurations
- Additional printer and flatbed sizes available

### INK CONFIGURATIONS

**Dual CMYK**  
**CMYKWhGI**  
**CMYKWhGIPr**  
**CMYKOrReWhGIPr**

## Included VersaWorks 6 RIP Software

Effortlessly manage your print output with the latest edition of the world's most popular RIP software. In addition to improved speed and file handling, it offers the following benefits:

- A Special Color Plate Generation feature for automatically generating White, Gloss and Primer layers directly in the RIP
- New color matching features for printing, scanning and transferring color values to matching Roland DG devices
- Cropping, tiling, nesting, extensive color libraries and other popular features
